

# CurrencyExchangePro

Your friend in international commerce.

# International Commerce

Problem:

- Confusing
- Fluctuating

Result:

Susceptible to being taken advantage of.

# Concept

We want to give users ability to..

- Easy to use currency exchange application
- Ability to search multiple currencies.
- Ability to track previous searches.
- Ability to convert Bitcoin.

# Technologies used

- HTML
- CSS
- Javascript
- Bulma
- CurrencyLayer API
- FlagAPI

# Team Responsibilities:

- Matthew Bell (Javascript, Software Mapping)

- Rob Connolly (HTML, CSS, Bulma, Wire Framing, )

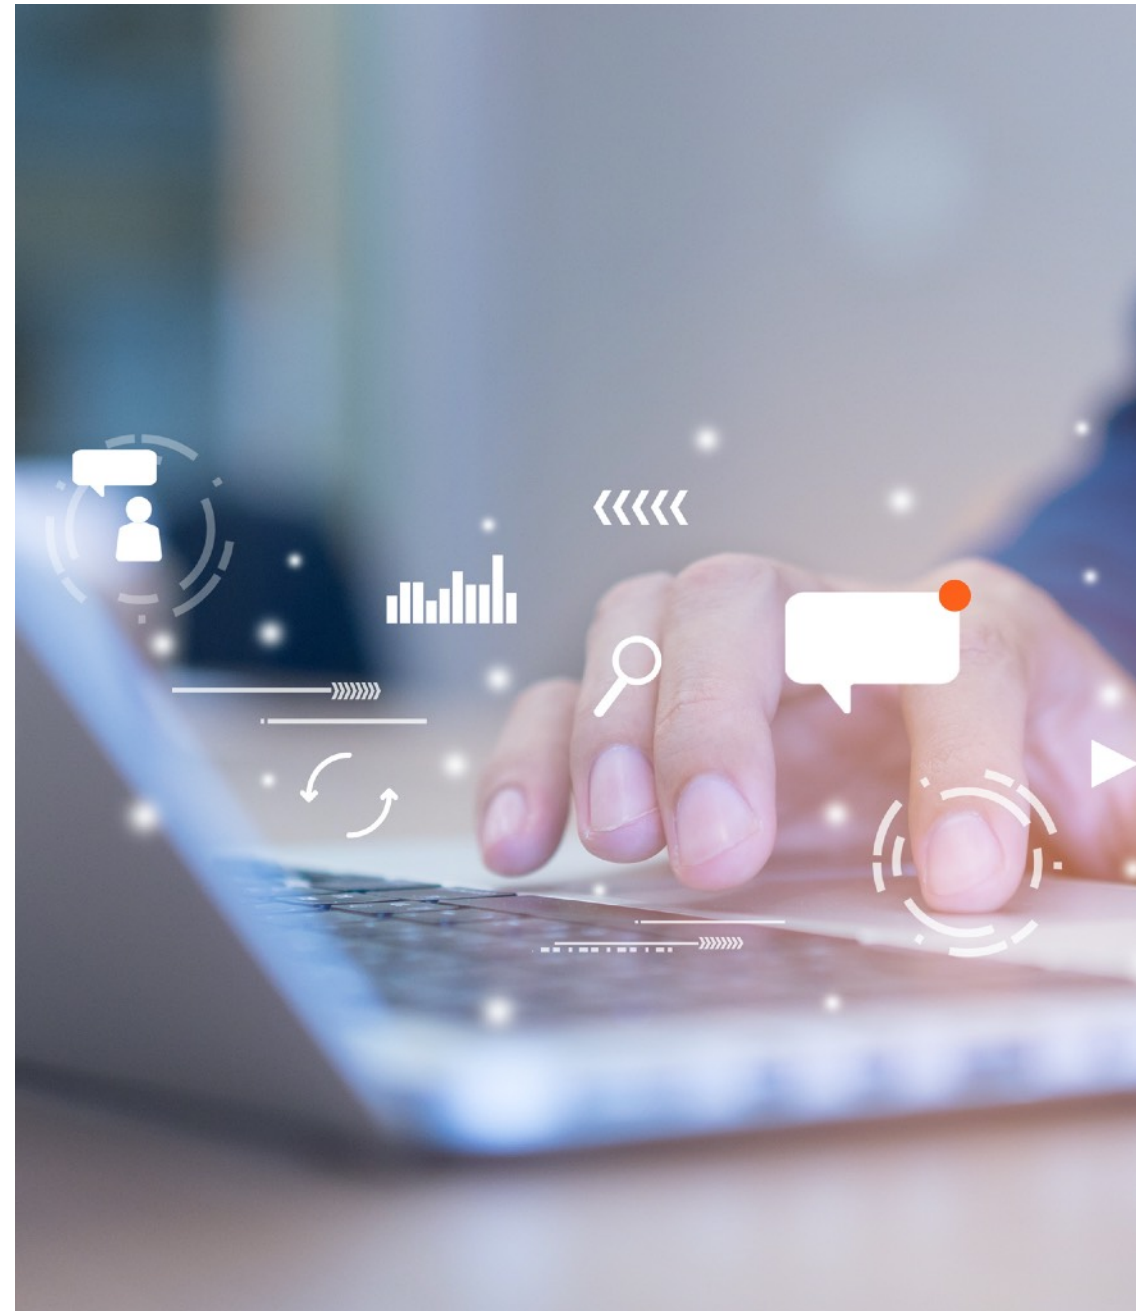

- Greg Schuman (Currency API Research, HTML, CSS, User Experience)

**DEMO**

*Performed by Matthew Bell*

# Future Development

- Currency Text Alert w/ Twilio or email with Sendgrid
- Affiliate Program with TransferWire.
- Historical Data
